Bestevia®
SYNERGY SWEETENER SYSTEMS

Precision Sweetness. Designed for Performance.

Reimagine sugar reduction with Bestevia® Synergy Sweetener Systems
A precision-engineered stevia platform designed for the **EMEA** market. **Bestevia® Synergy Elevate** and **Bestevia® Synergy Indulgence** help optimise sweetness intensity, onset, linger, and finish for category-specific performance.

Bestevia® Synergy Elevate

Performance Benefits
- High-impact sweetness
- Clean onset and controlled linger
- Supports deeper sugar reduction
- Helps reduce bitterness and off-notes
- Preserves fruit brightness and drinkability

Applications
- Carbonated soft drinks
- Juice drinks
- Sports nutrition beverages
- Functional beverages
- Sauces

Elevate Sweetness Architecture
High-impact sweetness structured for bold applications and deep reduction.

Bestevia® Synergy Indulgence

Performance Benefits
- Slow, rounded sweetness release
- Supports rich and creamy flavour profiles
- Helps reduce bitter and lingering off-notes
- Improves perceived creaminess
- Supports cocoa, vanilla and dairy notes

Applications
- Chocolate and confectionery
- Puddings and desserts
- Dairy and plant-based beverages
- Granola and bars
- Meal replacement shakes

Indulgence Without Compromise
Refined sweetness performance that preserves impact, richness, and enjoyment.
